

GARAGE DOOR PERMIT

DO NOT DESTROY OR THROW AWAY

Permits Expire 180 Days from

Date of Issue: _____

Your permit will expire on: _____

Unless you have been inspected and passed.

If the office has not scheduled the final inspection after the installation, please call 561-846-2378 to have your inspection scheduled.

On the day of the inspection, the county / city may be able to give us a time frame. If we are able to obtain a time window, we will call you that morning with the information. It is your responsibility to choose a flexible day to meet the inspector and give them access to the inside of the garage. Please be aware At Your Service Garage Doors will not have a representative on site at the time of the inspection. You will need to have the permit on site for the inspector to sign once the inspection has been completed. The permit will be left for your records. Please do not remove the product approval stickers on the garage door as they will need to stay on the door for any wind mitigation inspection in the future.

Installed Design (Mark ONE)	Manufacturing Product Code	Drawing Reference	Design Pressure (PSF)	Impact & Cyclic Rating	State / Local Approval Number
☒ W6	PAN-2753	101539-A	+37.0 / -41.0	YES	FL5675.981
